

Dear Brian

I would like to thank you for a most professional service in the removal of my home contents from Hornsby Heights to Sans Souci on Monday 3 December 2007.

In particular I would like to highlight the very professional and amicable team of three on the job that day. They were quick but careful and very obliging. A pleasure to deal with.

I work in an industry that deals with contractors and subcontractors and often find that the subcontractors have let the contractor down on many occasions. However, I was pleased to see that your team didn't let you down. It must be very good management on your part.

I will be happy to recommend you to others needing removal services.

Thank you again and regards

Domenica
